

Amendments to the Specification:

Please replace the paragraph beginning on page 1, line 12, with the following rewritten paragraph:

A like non-return valve is disclosed in the applicant's data sheets
RD 20 395/12.95~~RD 20 395/10.95~~. There, a metallic sealing piston adapted to allow a flow
therethrough is received in a valve housing and is in a basic position biased against a valve
seat, so that a pressure medium connection between two working ports is blocked in the
direction of flow therethrough.
